ELECTRICAL REQUIREMENTS

Check that the voltage on the rating plate of your appliance corresponds with your house electricity supply which must be A.C. (Alternating current).

WARNING : The plug removed from the mains lead, if severed, must be destroyed as a plug with a bared flexible cord is hazardous if engaged into a live socket outlet.

Bared flexible cord is hazardous if engaged into a live socket outlet.

Should the fuse in the 13 amp plug require changing a 3 amp BS1362 fuse must be fitted.

The PORTABLE CD.MP3 RADIO will work on mains or can be battery operated for portable use. When the mains connector is fitted then the batteries will be overridden.

Power supply

Insert the figure of eight connector on the mains supplied in the mains connector. Insert the plug into the mains socket and switch the socket on.

Installing batteries (not supplied)

- 1 Remove the battery compartment cover (located at the bottom of the unit).
- 2 Insert 8x D batteries and connect to the terminals (ensure batteries are inserted correctly). Replace the battery compartment cover.

If the unit is not to be used for a prolonged period, remove the batteries to avoid battery leakage. In the interests of environmental safety, dispose of batteries safely.

Easy set up guide

- 1 Fully extend the telescopic aerial.
- 2 Insert the mains connector or eight 'D' size batteries into the battery compartment.
- 3 Press STANDBY/ON to turn on the unit. The display will light up and 'HELLO' will show on the display.
- 4 Press FUNCTION to select the desired function.
- 5 Adjust the volume by pressing VOLUME UP or VOLUME DOWN to a suitable level.
- 6 To turn the unit off, press STANDBY/ON.

CD OPERATION

Normal play

Press ON/STANDBY button to turn on the unit.

- 1 Make sure the unit is in CD mode by pressing FUNCTION.
- 2 Open the CD door and load the CD onto the pivot, then close the door.
- 3 Press PLAY/PAUSE to play CD, the CD track and play time will show on the display.
- 4 To select a particular track, press and hold REW or FFWD.
- 5 To quickly advance through music, press REW or FFWD.
- 6 To stop CD play back, press the STOP button.

NOTE:

- If the CD door is open, OPEN appears on the LCD.
- If the disc compartment is empty, or the disc cannot be played, 'no disc' is displayed showing continuously on the LCD.
- Do not store CDs in damp areas. Do not expose CDs to high temperatures.

- You should avoid leaving the CD door open, dust is liable to impair performance of the laser optical unit.

Repeat play

The repeat feature allows you to play one track, a complete disc or a directory.

- 1 To play one track repeatedly, press REPEAT once. Repeat one icon  will appear on the display.
- 2 To display all tracks repeatedly, press REPEAT twice. Repeat all icons  ALL will appear on the display.
- 3 To play one directory repeatedly, press REPEAT 3 times. Repeat directory icon  DIR will appear on the display. (for MP3, WMA data disc only).
- 4 To cancel the repeat function, press the REPEAT button until the repeat icon disappears.

Intro play

(for remote control only)

- Intro Play is for introduction playback of every track for the first 10 seconds.
- Press INTRO on the remote to start intro play STOP mode.
- Press INTRO on the remote to toggle between INTRO play and normal play during PLAY/PAUSE mode.
- INTRO is shown on second line of the display when intro mode is active.

Random play

Random play is for playing the CD with shuffle option.

Press RANDOM to toggle between random play mode and normal play mode. The RANDOM icon is shown on the second line of display if RANDOM is selected.

- 7 Set the timer volume using the same method as in the timer function.
- 8 Press TIMER on the remote control, then press the ON/STANDBY button.
- 9 The display will stay on the TIMER start time is reached.

Recorded file structure and bit rate table

NOTE:

- When the timer function is set, all buttons are locked except TIMER, MUTE, VOL +/- MUTE buttons.
- In the starting time, the portable stereo will advance 5 minutes to turn on for searching storage device, and the portable stereo will increase the volume 0 to pre-set volume level within 10 seconds.
- Timer record only for FM and AUX record to USB storage device or memory card.
- You can not copy music files between USB and SD card alternately.

ID3

The system default setting is ID3 ON, support up to ID3 V2.0

If the system set to ID3 ON, and the unit is playing MP3, the music info is displayed.

If the system set to ID3 OFF, LCD will show track no. and play time.

Tips for supporting famous MP3 players

Due to the legal issue, we can not edit the structure of the following MP3 players. Please follow below after ripping.

Creative ZEN series

- 1 Enable the removable disk function before plug into the unit (Menu-Extras-Removable disk).
- 2 After ripping, plug the Creative to the PC and move the ripped file into Creative MP3 structure by its software.

Sony series

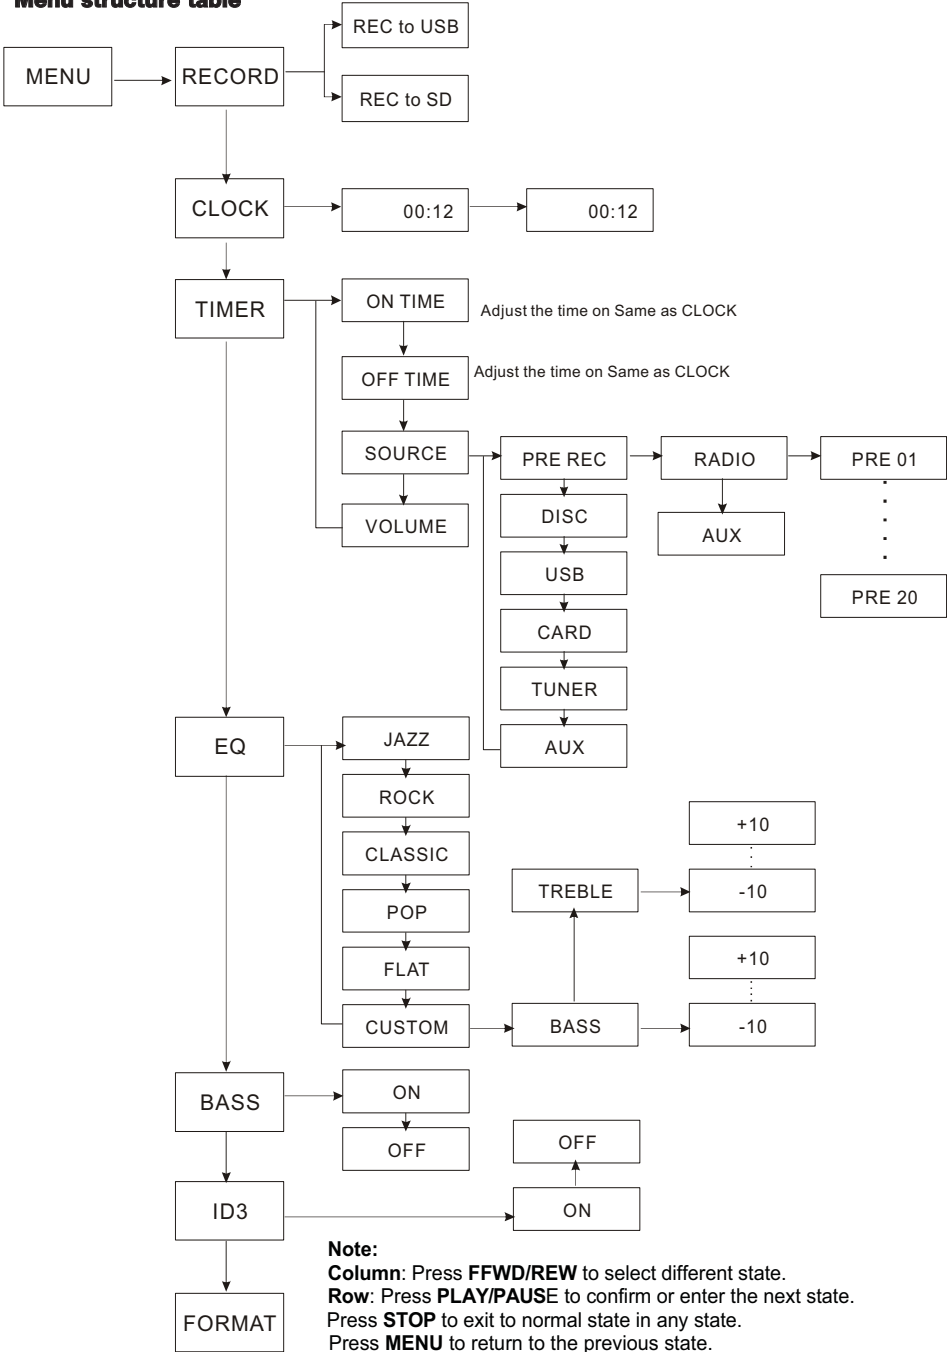

- 1 After ripping, plug the Sony MP3 player to the PC.
- 2 Move the ripped file into Sony MP3 structure by SonicStage.

iPod series

- 1 After ripping, plug the iPod MP3 player to the PC.
- 2 Move the ripped file into the iPod MP3 structure by iTunes.

Menu structure table

Compact disc

Always use compact discs bearing the mark shown

Handling discs

- Removing the disc from its storage case and load it.
- Do not touch the reflective record surface.
- Do not stick paper or write anything on the surface.
- Do not bend the disc.

Storage

- Store the disc in its case.
- Do not expose discs to direct sunlight or high temperatures, high humidity or dusty places.

Cleaning a disc

- Should the disc become soiled, wipe off dust, dirt and fingerprints with a soft cloth.
- The disc should be cleaned from the centre to the edge.
- Never use benzene, thinners, record cleaner fluid or anti static spray.
- Be sure to close the CD door so the lens is not contaminated by dust.
- Do not touch the lens.

Maintenance

Do not expose your system to extreme of temperatures. The product should be kept in a warm environment free from dust and damp. For external cleaning use only a soft, clean, damp cloth. Use of detergents may damage the finish.

Cleaning the exterior

- Prior to cleaning the exterior, be sure t unplug the power cord from the AC power outlet. Wipe the exterior with a soft, clean,

and slightly water-dampened cloth.

Precautions

- Never open the cabinet under any circumstances. Any repairs or internal adjustments should be made only by a trained technician.
- Warning: Never operate this product with the cable removed.
- The CD player of this unit uses a laser to read the music on the disc. The laser mechanism corresponds to the cartridge and stylus of a recorder player. Although this product incorporates a laser pick - up lens , it is completely safe when operated according to directions.
- Discs rotate at high speed inside player. Do not use damaged, warped or cracked discs.
- Do not touch the pick-up lens which located inside the disc compartment. Also, to keep dust from collecting on the pick-up lens, do not leave the compartment door open for an extended period of time.

Ventilation warning

The normal ventilation of the product shall not be impeded for intended use.

Warning labels

WARNING: To reproduce the risk of an electric shock, do not expose this application to rain or moisture.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

ATTENTION: To reduce the risk of an electric shock, do not remove the

cover. There are no user serviceable parts inside the unit. Refer any servicing to qualified personnel.

Lightning flash will arrowhead symbol within the triangle is a warning sign alerting the user of 'dangerous voltage' inside the unit.

The exclamation point within the triangle is a warning sign alerting the user of important instructions accompanying the product.

To prevent fire or shock hazard do not expose this apparatus to dripping or splashing.

Technical Specification

AC power supply:	230 V-50HZ
